SUMMARY

I am a highly skilled Blockchain Developer with a strong technical background and extensive experience in this blockchain industry.

With 6+ years of hands-on expertise in both frontend, backend and blockchain development, I am well-versed in creating innovative, secure, and scalable solutions tailored to meet your business needs.

EXPERIENCE

Senior Blockchain Developer | Samod | EPAM Systems, Temy 05/2022 – 04/2025
L'viv, Ukraine

- At EPAM Systems (Samod division), I work as a Senior Blockchain Developer responsible for designing, implementing, and maintaining decentralized applications (dApps) and blockchain-based infrastructures. My role involves developing smart contracts, architecting tokenomics, and integrating blockchain systems with existing enterprise software.

Frontend & Smart Contract Developer, Goodface agency 08/2020 – 12/2020
Kyiv, Ukraine

- Built a token presale and staking platform from scratch using Solidity and React.

Junior Full-Stack Developer 01/2019 – 07/2020

- Developed admin panels and backend services using Node.js, Express, and MongoDB. Built responsive frontends with React.js, Next.js, React Native. Implemented user authentication, payment gateways, and real-time dashboards.
